

Safe Agriculture, Since 1998!

PRODUCT INFORMATION

JAIVIZYME AMINO ACIDS is a premium biostimulant power packed with high quality amino acids for healthier crops and optimum yield.

COMPOSITION:

Proteins Hydrolysates expressed as proteins (min.) : 20 (w/v in %)

FORMULATION: Available in liquid form.

CROPS: All crops.

DOSAGE: 2 to 3 ml per litre of water. For soil drenching use 5ml per litre of water.

APPLICATION METHOD: Mix the recommended quantity thoroughly in sufficient amount of water & spray uniformly on the plant surface.

ADVANTAGES

- ✓ Promotes the development of chlorophyll, sugars and proteins in plants and aid in photosynthesis.
- ✓ Increases vitamin and mineral content of plants.
- ✓ Stimulates plant growth (higher biomass production) by accelerating cell division, increasing the rate of development in root systems and increasing the yield of dry matter.
- ✓ Helps in absorption of mineral nutrients and activates the physiological process.

SHELF LIFE - 5 years from the date of manufacture.

PACKS AVAILABLE: 100ml, 250ml, 500ml & 1000ml.

Compatibility of our formulations with other growth supplement/agri-inputs: It is best to avoid mixing with sulphur and copper based products as well as micro organism based products. It is always advisable to try a small sample for mixing any two formulations before farm-level application to ensure the physical stability and tolerance by plants.

REGISTRATION STATUS: Application for provisional registration is under process under the category of biostimulant.
