

Safe Agriculture, Since 1998!

PRODUCT INFORMATION

COTCOVER is a unique non ionic surfactant spray adjuvant with aversive agents specially formulated for cotton.

COMPOSITION

Non ionic surfactant : 80%

Diluent and aversive agent : 20%

FORMULATION: Available in liquid form.

CROPS: Cotton.

DOSAGE: 2-3 ml / litre of water.

APPLICATION METHOD: Mix the recommended quantity thoroughly in sufficient amount of water & spray evenly on the plant surface.

ADVANTAGES: When added to agricultural spray solution, it reduces the surface tension, increases spray coverage and enhances the performance of the actives. The mild bitterness works as aversion agent.

SHELF LIFE - 3 years from the date of manufacture.

PACKS AVAILABLE: 100ml, 250ml, 500ml & 1000ml.

Compatibility of our formulations with other growth supplement/agri-inputs: It is best to avoid mixing with sulphur and copper based products as well as micro organism based products. It is always advisable to try a small sample for mixing any two formulations before farm-level application to ensure the physical stability and tolerance by plants.
