

## PRODUCT CODE

## ORGANIC PESTICIDE (BPH) BP11 – LIQUID

Composition	Ingredient	Liquid
	Thymol	06.00% w/v (min.)
	Salt of fatty acids	94.00% v/v (max.)
	Total	100.00%

Ecopel is unique product based on thymol and salt of fatty acids, which act as a antifeedant against Brown Plant Hoppers in paddy crop.

### Mode of Action

Upon spraying ECOPEL, the insects do not feed on the crops due to its antifeedant properties and hence they leave the plants quickly.

### How to Apply

**Liquid:** Mix the recommended quantity thoroughly in sufficient amount of water & spray on both sides of the leaves.

### Shelf Life

3 years from the date of manufacture.

### Antidote

No specific antidote. Treat symptomatically.

### Dosage

**Liquid:** 2-3ml per litre of water

**Note:** Since the use of this product is beyond our control, we cannot assume any responsibility other than uniform quality of the product.

### Organic Approval as per

1. IMO Control (Liquid)
