CODE**

**ORGANIC NEMATOCIDE
BP12 – GRANULES**

Composition	Ingredient	Grnules
	Mixture of Thymol, Potassium Soap & Silicon Surfactant	: 10.00 w/w (min.)
	Sodium Salts	: 10.00 w/w (min.)
	Carrier Granules	: 80.00 w/w (max.)
	Total	: 100.00%

NEMAX-GR is an innovative formula which has the broad spectrum activity against Root Knot nematodes, Cyst nematodes, Reniform nematodes and Stunt nematodes affecting Paddy, Banana, Cotton, Tobacco, Vegetables, Orchards and Ornamental crops. It is also effective on various soil borne fungal diseases.

Mode of Action

A truly novel formula combining thymol, Potassium Soap, Silicon Surfactant and salt of fatty acids, these will act as fumigant to inactivate the nematodes present in the roots and soil.

How to Apply

For improving the soil quality and getting the additional advantages like control of nematodes and soil borne fungal diseases, broadcast the granules in the recommended dosage uniformly in the field. Nemax granules can be broadcasted on all type of crops.

Shelf Life

5 years from the date of manufacture.

Antidote

No specific antidote. Treat symptomatically.

Dosage : 4-8 Kgs per acre.

Organic Approval as per : IMO Control
